IPES Edu vision & mission to provide pharmacy education is an mammer for improvement of quality of pharmacist & as well as other health care professional , for securance of public health in India .

According to FIP Education " Pharmacy and pharmaceutical sciences education develops a competent, professionally educated pharmaceutical workforce (e.g. pharmacist practitioners, pharmaceutical scientists, pre-service students and pharmacy support workforce) for a diversity of settings (e.g. community, hospital, industry and academia), through different stages (e.g. undergraduate, postgraduate, and continuing education after registration) within an appropriate academic and institutional infrastructure."

The study of pharmacy involves health sciences and chemical sciences and pharmacists are pharmaceutical experts and primary health professionals.Pharmacy is the science and technique of preparing, dispensing, and reviewing drugs and providing additional clinical services. It is a health profession that links health sciences with pharmaceutical sciences and aims to ensure the

safe, effective, and affordable use of drugs. The professional practice is becoming more clinically oriented as most of the drugs are now manufactured by pharmaceutical industries. Based on the setting, the pharmacy is classified as a community or institutional pharmacy. Providing direct patient care in the community of institutional pharmacies are considered clinical pharmacy.

IPES Edu play an important key role to provide best Suitable education of pharmacy candidate & get involve in solving issue related to issue of pharmacy profession.
